6. The learning goals and objectives were met. ($n=8$)	87.5%	0.0%	0.0%	0.0%	12.5%
7. The presenter(s) were responsive to the participants' questions and comments. ($n=8$)	87.5%	0.0%	0.0%	0.0%	12.5%
8. The information presented was relevant to my work. ($n=8$)	87.5%	0.0%	0.0%	0.0%	12.5%

Narrative

The following responses are from a variety of participants; administrators, community members, consumers, family members, peer support specialists and professionals.

19 Evaluations Received

Overall, the presenters received positive feedback from participants. A majority of the respondents stated that the entire training was great and helpful when asked what information was most helpful. Some others responded that the most helpful part of the training was: the videos; that there can be more than one way to perceive a situation; better understanding of how to administer the CAFAS; the discussion surrounding the subscales.

Participants indicated they will use the information provided to: correctly administer CAFAS; will use it when interviewing; implementing supervision of staff; reviewing charts for quality purposes.

Other trainings topics participants want to see in the future: pain management; tying the CAFAS assessment to an explicit treatment plan.
